Two Good Ball Games

Vermilion Wins from Wainwright

In a once famous horse race, "Sparkplug" won by a tongue length so in a baseball game on Sunday afternoon at Wainwright, the visitors won by a similar measure. Needless to say that a game so keenly contested as Vermilion vs. Wainwright caused much interest. And the fans were in no way disappointed for both games: bristled with brilliant plays, as the scores would indicate. The first game culminated with a score 3-4, the second 4-5, both in favor of Vermilion. That Wainwright has material for an outstanding team is well known—this fact is quite apparent to the managers. But are the public behind the boys with the wholehearted support which is due a group of lads? A good boost from everyone could possibly have the

psychological effect for that one point extra, so badly needed in each instance to win each of the foregoing games. Certainly it would have a powerful effect financially for money makes the mare go.

Following is the line-up in the recent games.

Wainwright	Vermilion
B. Roberts	C. Carey
S. Roberts	P. Banks
P. Spornitz	Washington
Russell Coffield	A. A. White
V. Ganderton	1b LeVila
Reg. Coffield	2b Brimcombe
Lane	3b Banks & Smith
P. Stuart	4b A. Brimcombe
V. Coffield	cf N. Meade
R. Ganderton	lf J. Mead
Umpire: H. P. Schlitt, Allan Harper and George Agnew.	

IRMA NEWS

Born—To Mr. and Mrs. A. Ploker, September 4th, a son. We are pleased to report that he is doing nicely.

Sign painters embellished the town last Friday, Prickleton's Drug Store, Irma T.A. King Company and Irma Pool Room got a splash of Ochre.

Mr. Eric Larson, of Olympia, Washington, returned Sunday, September 9th, after spending a few weeks in the district looking over his interests. Miss Ellen Anderson returned with him to spend six months with her aunt, Mrs. Ada Larson.

The prize list of the School Fair held in Irma Saturday September 8 will appear in next week's issue.

Local Items

M. L. Forster and wife were visitors to Edmonton last week.

Harold Brunner and wife motored to Edmonton on Friday last.

Bibby's put a carload of wheat over their platform for Kelly Bros. the early days of this week.

We noticed L. L. Howes, of Edmonton, an old timer, on the street Monday.

Mrs. D. Lepper returned home from an extended visit with relatives at the Coast.

Wainwright Planning for Open Air Rink This Winter

The first regular September meeting of the Council of the Town of Wainwright assembled in the Council Chamber on the 4th inst. at 8 o'clock p.m.

All members of Council were present at this meeting.

The recorded proceedings of Council at its regular meeting of August 21st, 1934, were read and, on motion, were adopted and confirmed as written.

Mr. H. C. Link made written application for permission to construct a sewer pipe line across the land in the rear of his lots facing upon Main Street from Lot 3 to Lot 13 to connect his septic tank on Lot 13 with the disposal tank on Lot 13 and, on motion, his application was approved and his request granted.

Mrs. Edna L. Link made written application to purchase Lot 17 in Block 7 Plan 445 V and, on motion, her application was granted at a price of \$15.00.

Secretary-Treasurer were authorized to issue cheques in payment of all accounts included in the report in a total of \$720.50.

The Committee on Fire, Light and Utilities submitted the following report, viz:

That on examining the two rooms occupied by firemen, J. Wright and J. Duncan, that these rooms were badly in need of renovating. These rooms have been cleaned and woodwork varnished.

This committee also wishes to report that we shall have a meeting in the near future for the purpose of re-arranging the fire brigade and installing a suitable man in the room formerly occupied by Mr. J. Duncan. All of which is respectfully submitted.

On motion, the report of the Committee on Fire, Light and Utilities was accepted and incorporated in the proceedings of the meeting.

On motion, the notices from the Wainwright Municipal Hospital of the admissions of Mrs. Reynolds and Mrs. Thomas were ordered filed.

On motion, Council will accept proposals from resident ratepayers at its next regular meeting for the operating of an open air rink during the coming season and are prepared to accept the proposal which to them appears most favorable.

On motion, Council set the maximum cost of a meal to be given to a transient at the Town of Wainwright at 15 cents and specified that not more than one meal be given to the same individual.

On motion, Council was regularly adjourned.

A New Man to Consult Farmers

GRAIN BUYER RETURNS TO FORMER HOME TOWN

Moving his home furnishings and family from Dodd's last week, Mr. Bruce Cadick established house keeping in the residence formerly occupied by Fred Thurston. Mr. Cadick has been for seven years in the elevator business in Dodd's and through his acquaintance with the business in that line has decided to offer progressive farmers a different deal. He will purchase wheat and ship over the platform. The territory covered will extend from Viking to the Saskatchewan boundary, including Paradise Valley Branch to Rivercourse. Progressive farmers may do well to consult with Mr. Cadick before moving their grain.

IRMA NOTES

L. Barnes, of the Albert District, has purchased a 1934 Chevrolet Truck.

The Imperial Oil Company have stuck up another three star gasoline sign on Main Street. The East side of Broadway is getting a telephone of Neon Lights.

EDGERTON RIPPLES

Rev. and Mrs. W. Bainbridge were visitors to Chauvin last Monday.

Douglas Cooke was operated on for appendix trouble in the Wainwright Hospital last Tuesday. We are glad to report that he is doing very well, and will soon be returning to his home in this district.

Mr. and Mrs. Robert Watson, of this town celebrated their 33rd wedding anniversary last Thursday. A large crowd gathered at their home to bring them greetings, with the wish that they would have many more anniversaries. They were born in Simsbury, Lambton County, Ontario, and were married on September 6th, 1881. They came to Edgerton some 25 years ago, and are respected by the old timers of this community. There are two sons Raymond, and James also a daughter, Mrs. W. W. Warnock, and eight grand children, all residing in this district.

A Candy Sale, under the auspices of the St. Mary's Sunday School last Saturday was well patronized by our town and district people.

The Edgerton Junior Aid met at the home of Mrs. Anderson last Wednesday afternoon. A large crowd was in attendance, and a good time was enjoyed by all.

Mr. and Mrs. Keith, of Chauvin, accompanied by Miss Ruth Guley, were visitors at the Edgerton Manse on Thursday evening.

The home Cooking Sale held last Saturday was a great success.

Punctual service for Baby Horn were held in the R.C. Church on Monday morning, at 10:00 o'clock.

SHOOTING SEASON

Lovers of outdoor sports will be waiting impatiently for Saturday next, September 15, when the season opens for shooting. This year ducks, geese and Hungarian partridge will furnish the targets for hunters. Prairie chicken will remain protected. There is a closed season on Sandhill cranes, swans and all song birds.

Wild ducks are reported to be very numerous. Their select feeding ground recently was a field of barley owned by Mrs. S. W. Wiley and such damage was apparent, because of their numbers, special permits were issued by Corporal Collette to shoot in that field. Some good bags are therefore anticipated on Saturday next.

Shooting on Sunday is prohibited.

FOR SALE

Ford Truck, Model A 1929, in good condition—Apply to—
x-2-23 J. E. NORDSTROM

Saw today, James Hodley sawing flies in the Pool Room and taking 1917 war days with Sherry Van Dyke.

Mr. Henry Kasten returned this week from an extended visit in Germany.

Mr. S. Borsky, of Gardnerville, Car to give the district its Oregon, arrived here Saturday by annual once over.

Miss Jean McLean, of Irma, was in town for the wedding of her cousin, Miss Katherine Decton and aunt, Mr. and Mrs. Harold Decton, (Edmonton Journal).

Question? Who is the nominated candidate for Social Credit movement in the next Provincial Election.

27 cars of grain have been shipped from Irma since August 1st. 20 of these were loaded with 1934 wheat, at the present time grain car shortage is prevalent the first thing we know that Simco's Red Fleet will be trucking wheat to the lake head.

510 cans of cream have been shipped from Irma since August 1st to September 10th, 1934. (Copy that one, Hon. Russell, for your Cow Bell).

Mrs. A. L. Weir, aunt of E. L. Elford celebrated her eighty eighth birthday last week. Congratulations Mrs. Weir, we trust you will see twenty two more at least.

Mr. V. Hutchinson, agent for the Western Distributors Ltd (not the Brewing Outlet) is installing two, one thousand gallon tanks at the rear of his building on first avenue and it is his intention to retail the Red Head Gasoline products. Emil Worth has contracted for the excavating.

Mr. and Mrs. Ben Muttart, of Edmonton, Alberta, spent the weekend with Mr. and Mrs. A. H. Lock their life long friends.

Bonnyville or bust. With two of his auto's eyes shut off, taged with a last year's license, bearing the family, a bald-headed truck driver with all his goods from the unfertile fields of medicine Hat, called at the Record Office on Friday. He was on his route to Bonnyville, Alberta. He said he had had enough of dust storms and drought of southern Alberta and was searching for God's country. We wish him success in his next location.

Frank McLeod motored to Edmonton on Monday with a patient. He returned on same night.

We are glad to see Ed Turner out and around again after his appendix operation.

We are glad to report that Mrs. Reynolds is very much improved in health.

Mr. Limpert, of Edmonton, was a visitor at the R. A. Snyder home over the weekend.

Mrs. E. W. Davis journeyed to Edmonton on Saturday in answer to word that her brother had undergone an operation at an Edmonton Hospital.

Miss Muriel Durrant motored to Regina Friday with Dr. Small, of that city.

W. C. Bowen received a pleasant surprise on Saturday last by a visit from two representatives of H. D. son Bay Land Company. Mr. Joslyn, of Winnipeg, head of the Winnipeg Staff and Mr. Elday, of Vermilion, local representative. Mr. Bowen was congratulated on his splendid showing on the company's books during the current year.

Laura Lyle was visiting Ivas Harden over the weekend.

Harry McNern is back again in town after spending considerable time in St. Joseph's Hospital.

The Progress Lumber Co. and aded a carload of lumber this week.

Lars Osberg was a visitor at the I. H. C. Office this week.

EXPLANATION

This paper is behind schedule. So was the week. This was chiefly due to a change in staff, but the printer says that "the man who said 'War is hell' never tried changing printing offices and endeavoring to be on time.

HOPE VALLEY NOTES

Mrs. Clarence Street has returned to Amisk after spending some time with Mr. and Mrs. J. W. Street.

Giles School opened on Tuesday with an enrollment of twenty pupils. Inspector Good visited the district on Friday and gave authorization for Grade IX to be taught here.

The Taylor-Lawrence threshing outfit and Joe Moore's steam outfit are certainly turning out the grain. The average yield here will probably be around twenty bushels to the acre.

Mr. and Mrs. Gorton, of Edgerton, motored to Hope Valley on Sunday.

Miss Sadie Kyeekwood is returning to Montreal this week.

Council Minutes

M.D. OF GILT EDGE

Minutes of the meeting of the Council of the Municipal district of Gilt Edge No. 422 held at Wainwright at 10:00 a.m. on Tuesday, the 4th day of September, 1934.

Councillors present—All.

Moved by Councillor Black—That Mr. S. Kitchin offer to pay 10¢ in each and every year, commencing 1934, as rental of the 12,466.4, until all taxes are paid up, be accepted, and that Secretary draw up a lease; further Council is agreeable that Mr. Kitchin may sub lease—Carried.

Mr. M. H. Pugh, Hospital Trustee, waits on Council, re fees paid to Hospital Trustees, attending Trustee Meetings.

Moved by Councillor Withnell—That Secretary advise Hospital District No. 17 that the Council is perfectly willing to leave the matter of payment of Trustees to the Hospital Board—Carried.

Feeling adjourned to 1:30 p.m.

Moved by Councillor Withnell—That Secretary advise Mr. W. H. McNern that the District is unable to do anything further for him; that the St. Joseph's Hospital is being advised to vacate him, and that if he wishes to return to Wainwright the Railroad has been advised to transport him, District guaranteeing the fare—(6 votes, 1 naye), Carried.

Moved by Councillor Black—That Secretary instruct Sheriff Miles to detain for taxes owing against the SE 36.46.4 R. McElhenny—Carried.

Moved by Councillor Withnell—That Mr. Lorne Guthrie be advised that this district cannot help him with the Doctor and Hospital accounts re coming maternity—Carried.

Secretary reports account from Miserioria Hospital re Donna Hill; advise Hospital that their family is not indigent—Carried.

Moved by Councillor Black—That Wallace re Mrs. P. Gordon maternity case, that this District cannot guarantee same.

Moved by Councillor Traynor—That the Delegates to the Alberta Association of Municipal Districts Convention be—Councillors Black and Sutherland.

Alternatives; Councillors Rattray

Some Dance

Curling Club to Raise Funds

That Wainwright requires a increased space to accommodate its many members at the roving game has been unanimously reached by the members of executive of the Curling Club. Curling in one respect is like horse racing—Money makes the mare go—so the difficult proposition of financing is at present facing the Club. However it has been planned to raise part of the necessary funds by staging a big dance. This event is planned to take place in the Elite Theatre on the evening of Tuesday, September 18th. So get your dancin' pumps polished and be prepared to join the members of this outstanding organization at the folk. Music by the local orchestra. Lunch served. Admission 50 cents per person. Do your bit on this evening to help the boys add additional buildings for one or two more sheets of ice for their winter's sport.

Moved and Carried.

Moved by Councillor Black—That Secretary advise Mr. M. V. Peltch that her offer to purchase the NE 28.46.4 R. is insufficient; that Council would consider \$75.00—Car.

Moved by Councillor Rattray—That Mr. Branchdowns offer to purchase the NE 30.44.6.4 for \$1500 (\$500 cash and balance over 3 years \$125 per year, interest at 5 per cent be accepted—Carried.

Moved by Councillor Traynor—That the Weed Inspectors report be accepted—Carried.

Moved by Councillor Sutherland—That the Deputy Reeve for the last 6 months of Councillors year be O. Withnell—Carried.

Moved by Councillor Rattray—Following inspection to see that sufficient fence wire is there that the NE 30.44.6.4 R. is 20.44.6 by A. Dupre be claimed by this District in lieu of the last years rental—Carried.

Note—Dept. of Municipal Affairs approves of the sale of the South half of 28.46.4 to R. Hood.

Moved by Councillor Black—That accounts totalling \$70.00 be paid—Carried.

Moved by Councillor Black—That meeting adjourn—Carried

Nuptial

THOMAS — BELTE

A pretty but quiet wedding was solemnized on Saturday, September 8th at the home of the bride's mother, 1416 Parker Street, Edgerton, when Alma Belle, eldest daughter of Mrs. L. Stead, was united in marriage to Mr. E. H. L. Thomas, of Wainwright. Aunts, Rev. F. R. Holtzen, officiating.

The bride looked charming in a gown of white satin, and carried a shower bouquet of calla lilies and bridal roses.

The bridesmaids, Miss A. Elsie Nordberg and Mac's Cook were gown in delicate pink and sky blue and carried bouquets to match. The groom was supported by Mr. Alex Kilsbarn.

The drawing room was beautifully decorated for the occasion with masses of flowers, colored leaves and streamers of ribbons.

The wedding music was played by Miss Elsie Stead, who later accompanied her sister during the singing of "Whispering Hope" by the bride.

Following the signing of the register, a delicious buffet luncheon was served to the guests.

The happy couple left on a short honeymoon trip to Victoria and other points on Vancouver Island.

NOTICE TO RATEPAYERS

Municipal District of Battle River No. 423.

Will all ratepayers who made application for tax consolidation to the Council of the Municipal district kindly call in the Municipal office at an early date and sign the agreement forms. This will not only lighten the expenditure of registered letters but will considerably facilitate the work in getting all agreements complete and computed in the consolidation record.

Chas. Withnell, Secretary-Treasurer, M.D. Battle River No. 423, Irma 2-15.

Uniform Price System Advocated

Introduction of a uniform price system throughout Canada as a means of distributing whatever benefits result from protective tariffs and of equalizing production costs, was advocated by J. D. McKenna, St. John, N.B., publisher, in a recent submission to the royal commission investigating Nova Scotia's economic situation.

Urging equalization of wholesale prices of all protected goods manufactured in this country, Mr. McKenna contended that Montreal and Toronto virtually monopolized whatever benefits resulted from protective tariffs. Eighty-five per cent. of manufactured goods came out of Ontario and Quebec, he said, and because costs of the finished articles included all the taxes imposed by governments, provincial and federal, it followed that people of other provinces purchasing those goods, had to "pay not only their own taxes but theirs as well—and that comes to a pile of money."

His scheme to equalize costs and to standardize prices throughout the country, involves absorption by manufacturers of freight charges, a process with which many in Western Canada would be prone to agree. This, Mr. McKenna claimed, would permit manufacturers to place their products on the market at a uniform price—the same in Halifax, Regina and Vancouver as in Toronto and Montreal. Press despatches note that at the close of his presentation, Mr. McKenna was complimented by Prof. John Harry Jones, of Leeds University, England, who, noted as an economist, is chairman of the commission.

The contentions and proposals of Mr. McKenna are by no means new to Western Canada. Least of all are they new to a certain small group of Saskatchewan economic students which, for two years or more, has quietly been conducting inquiries along similar lines, with a view eventually of sponsoring a plan which might be adopted as a "Western Policy." This group has concentrated its attention upon the price structure, seeking to determine what inequities exist with it, noting more particularly the effects upon it and upon the purchasing power of the prairie provinces of freight, tariff and taxation costs.

The former favorable disparity in wage and salary scales as between Western and Eastern Canada having disappeared under stress of economic conditions, or being noticeable only in reverse, the Saskatchewan group has been seeking something to compensate the loss. Though prices of manufactured goods had fallen, the drop was commensurate with the drop in prices of farm products, and seemed to be determined largely by the reduced purchasing power of consumers in the West. Somewhere within this price structure, it was felt, lay certain factors which, if equalized or removed, would effect much-needed adjustments. Hence came the attack upon prices. The Saskatchewan group has laid stress on the fact that, while freight and tariffs have increased farmers' production costs, they have received no compensation from manufacturers of consumers' goods, nor have the advantages accruing to the industrialized areas been distributed as, it was thought, they should be. From this it was argued that, as consumers, prairie farmers were encouraging a system which tended to centralize industry in the Toronto and Montreal areas, which areas derived direct benefits from local taxes payable by the industries and from circulation of the payrolls of such industries. This system, it was contended, placed the West under toll both at home and in the East.

It was felt, therefore, that, inasmuch as these advantages were accorded the manufacturing areas of the East, there should be some compensatory factor, some method of distributing benefits, to all parts of Canada in the price structure. That is to say, while goods might cost a little more in the area of their manufacture, they would cost a little less in the area of their consumption. And inasmuch as the principle already is applied in the case of nationally-priced products, the proposition at first sight appears fair and just. The West will watch eastern reactions to the proposal made by Mr. McKenna, with considerable interest.

Border Cuts Off Hospital

Free State Board Has To Cross Line To Inspect It

Derry Port sanitary board has just held a remarkable meeting, the members leaving Northern Ireland to go into the Free State to inspect the business for which the meeting was summoned.

The board crossed the border in taxis to inspect its hospital at Ballyrattan, near Moville, in County Donegal, a hospital which has never had a patient since its opening thirteen years ago. It was built to deal with cases of infectious disease on vessels coming to Derry, but before its completion, the border had been created, with the result that the board was left on one side of the border and the hospital on the other.

No solution of the situation has ever been devised and the board decided to effect repairs to the institution, the chairman remarking that "the present state of affairs cannot go on forever."

South Africa Satisfied

Cession of South Africa from the Empire is as "dead as a do," according to General Smuts. Yet 24 years ago says the Ottawa Journal, General Smuts was riding the veldt warning on the Empire. History tells of little more splendid than this conciliation between Briton and Boer.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end, as a patient since its opening thirteen years ago. It was built to deal with cases of infectious disease on vessels coming to Derry, but before its completion, the border had been created, with the result that the board was left on one side of the border and the hospital on the other.

Don't experiment. Get "Dr. Fowler's." It has been on the market for 88 years.

Not Very Profitable

Abraham Lincoln Made Very Little From Law Practice.

When Abraham Lincoln was elected president of the United States, his bank balance aggregated \$601.44.

The original ledger showing his account now is on display in the Springfield Marine bank at Springfield, Illinois, where Lincoln was a depositor from March 1, 1833, until his death. His account after his death was continued by his administrator, Judge David Davis, of Bloomington, Ill., being finally closed on May 22, 1867.

The ledger in which his account appears is displayed in a glass and wrought-iron show case. The ledger is turned to a page on which is written in fine script the name "A. Lincoln" and the entries on the page bear out the certainty that his income from the practice of law was meagre at times.

COULD NOT SEW A BUTTON ON

Her Hands Were Helpless With Rheumatism

At one time she would lose the use of her right hand. "A blessing"—in the form of Kruschen Salts—put her right again.

"I was sure in a bad state," she writes. "In fact, I could not do my housework. I was so bad with rheumatism in my arms and hands. I could not sleep at night, and I thought I would lose the use of my right hand. I could not hold anything, nor could I sew a button on. My arm would go dead. I was forced to try Kruschen, and inside of three weeks I found such a change. I have kept on taking it, and now I sleep all night—thanks to Kruschen's help and relief." (Mrs.) J. H.

Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals, which are responsible for rheumatic agony. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channel.

Wheat Situation Hopeful

Supply For 1934-35 More Closely Related To Probable Demand

The crop year 1934-35 is commencing with the general wheat situation not without its hopeful aspects, the Dominion bureau of statistics states. The supply of wheat available for the present cereal year has been greatly reduced by virtue of a second successive crop disaster in the United States, the certainty of a low yield in Canada, a sharp reduction in production in many European countries and the prospects of a small crop in Australia. These developments combine to produce a situation where the available supply of wheat is more closely related to probable demand than at any time in recent years, the bureau said.

According to the United States department of agriculture, production of corn, wheat, oats, barley, rye and flaxseed are expected to be the smallest in 30 years.

Value Of The League

Exerts An Immense Force In The Prevention Of War

There is probably not a single country in Europe where the common people would blindly follow its leaders into war, if called upon to do so. All the nations of the world have in fact formally renounced war as an instrument of national policy; and the machinery of the League of Nations exists for its prevention. It is quite certain that, if war were actually threatened, or were actually to break out in one quarter, resort would be made to the League, whose power of collective action, even if never yet fully utilized, is potentially immense. Its mere existence has undoubtedly acted as a deterrent at least upon the lesser nations and upon those which are not removed by oceanic distances from Geneva—London Times.

Experimenting With Dry Ice

Air Cooled Planes Would Facilitate Travel In India

A transportation company in India is experimenting with dry ice, or carbon dioxide, as an agent for cooling aeroplanes. If satisfactory results are obtained, planes travelling across that country will be air cooled in future. Should experiments prove successful travel by air will be facilitated between Calcutta and Bombay, where summer temperatures of 115 degrees are considered normal and 130 degrees is sometimes exceeded.

Doorkeeper—Say, come back. Dogs are not allowed in here, sir.

Visitor—That's not my dog.

Doorkeeper—Not your dog? Why, he's following you.

Visitor—Well, so are you.

A Wonderful Operation

Severed Eye Muscle Sewed And Woman's Sight Restored

An operation—one of the most delicate in eye surgery—has restored sight to a Memphis woman.

Platinum needles, electrically heated, punctured the eye 20 times in the course of the skilful surgery which regained for Mrs. Westwood Sayre 70 per cent. normal vision.

She lost the sight of one eye in June as she returned to her home from her flower garden. The other eye was not affected. A noted Memphis eye specialist said it was a retinal detachment.

Severing a muscle he turned the eyeball inward. Foreign fluid had accumulated behind the retina causing it to bulge toward the centre of the eye. The retina is the curtain on the back of the inside of the eye on which images are focused and nerve sensations are transmitted to the brain. Blindness results if the retina is disturbed.

On the outside and back of the eyeball is a fibro-muscular covering which controls the movements of the eye and keeps the eyeball in shape.

From the outer edge of the fibro-muscular coating to the area under the bulging retina was a distance of one-eighth inch. A tiny incision would be pierced, endangering both sight and loss of vitreous, the jelly-like substance that keeps the eye round.

Twenty platinum needles, each one-eighth of an inch long, each with a silk thread in one end, were placed nearby.

Clamping the first with an instrument which brought electricity to the needle until it was hot, the surgeon inserted the first point into the small area.

Twenty times the eyeball was pierced. Then slowly he grasped the thread and pulled out each needle. The severed eye muscle was sewed.

For two weeks the patient lived in total darkness, her head braced to prevent movement which might break tiny connections where the needles had seared through the eyeball, allowing one-half teaspoon of retina to drip when it resumed its normal position.

The retina slowly dropped back into position. The eye healed. Bandages were removed. Light filtered into the retina. Objects became distinct.

Interesting Old Clock

Timepiece Of Catherine The Great To Be Repaired

A 17th Century clock, made by James Keels, an English craftsman, and presented to Catherine the Great by her favorite, Marshall Potemkin, is to be restored, says a Leningrad magazine. The clock, which is of great artistic value, has not been in working order since 1915. When it is in working order, at noon every day the image of a peacock on the clock stands up and spreads its tail, which is made of gold; it sits, starts crowing; and an owl, sitting on a branch above, rings a number of small bells.

Faster Planes Needed

French Air Staff Says Paris Would Be Helpless From Invasion

An invading air fleet will wipe Paris completely off the map unless France gets faster fighting planes, the French air staff believes.

Officials said the four days' aerial manoeuvres, recently held, showed conclusively that the capital cannot, with present effectiveness, be defended against air raiders, and emphasized sharply the urgent need for speedier aircraft.

A force of rebuilt pursuit planes failed to match the speed of heavily loaded bombers, comprising the "attacking" fleet, the average speed of which was 140 miles an hour.

Joan—"My Scotch friend sent me his picture yesterday."

Joan—"How does he look?"

Joan—"I don't know yet. I haven't had it developed."

Ontario Municipal Debt

Stated Debt Is Largest Of Any Province In Canada

Thomas Bradshaw, president of the North American Life Assurance Company, told the Ontario Municipal Association Ontario's municipal debt in default is the largest of any province in Canada.

Forty municipalities in Ontario, Mr. Bradshaw said, are in default to the extent of \$96,640,819 while the nearest approach to that figure is found in Quebec where the defaulting debt is \$15,000,000.

"No section of Canada, up to four years ago, has a finer reputation for municipal credit than the province of Ontario," he said. "To-day no section in Canada has a more serious municipal problem on its doorstep than Ontario."

Moose Is Fast Runner

Proved It By Travelling 35 Miles An Hour

How fast is a moose? Ask Charles Mumford of Yarmouth, Nova Scotia. He'll say 35 miles an hour.

While Mumford was motoring home Yarmouth a young bull moose in the road became frightened by the headlights and started running ahead of the car, maintaining his distance for a time while the machine travelled 35 miles an hour. Coming to a rise, the moose slowed to a 20-mile rate, leaped from the road and became tangled in a barbed-wire fence. Mumford and others from the car were able to help the animal escape by shaking the fence.

Switzerland Heads List

Leads All Countries In Annual Consumption Of Milk

Statistics released by the Department of Agriculture show that Switzerland leads all other countries of the world in the annual consumption of milk, with 280 quarts per person.

Second place for this distinction is shared by United States and Germany, each of which boasts of 220 quarts per person. Canada ranks next with 200 quarts.

The figures on other large milk-drinking nations also computed annually and per person, are as follows: Great Britain, 120 quarts; France, 100 quarts, and Chile, 30 quarts.

Obviously He Knew

"Sambo," said the magistrate reproachfully to the negro before him, "I cannot conceive of a man, more cowardly at times than yours of deserting you like this. Do you realize you are a deserter?"

"If you knowed dat lady as I does," replied Sambo, "you wouldn't sho' call me a deserter. Ah is a refugee—dat's what Ah is."

Applies To Advertising

If you had a whole bushel of chain links, it would not pull a load. Put them together in a continuous chain and you have a strong and powerful thing with which to pull a load. So it is with advertising. Link your ads together, run them in a continuous string, week after week and you will produce results.

There are 1,225,700 miles of motorway roads in Europe and the British Isles.

It Could Be Done

Midland Gardener Used Only Waste Water For Plants

At the Midland Bank Horticultural Society's show it was remarked that the winner of seven prizes exhibited blooms watered entirely with waste-water, bath-water, basin-water; at any rate not fresh tap water; of which he proudly boasted that he had not used a drop in his garden during those months of drought. It can be done. Therefore it ought to be done—as King Edward was fond of remarking mainly of things that were not done in his time. Do not ask us, please, how to get or convey bath water. Either find out, or don't use any water. A moral maxim for horticulturists.—London Daily Mirror.

Super-Race For Alberta

Development of a superior race of people such as has never been known in the world before was pictured as the future of Alberta through the combining of the province's wealth of natural resources and the ideals of the cosmopolitan population which live within its boundaries, by W. H. Howson, M.P.E., provincial Liberal leader, in an address given at Edmonton.

The United States ships quite a lot of blue blacking to Africa. The natives probably use it for cold cream.

King George V. once paid \$8,000 for a rare stamp.

DENICOTOTEA Cigarette Holder absorbs the nicotine, grading, ammonia and resinous and tart substances found in tobacco smoke. Complete holder with refill — \$1.00 postpaid, or from your Druggist or Tobacconist. Dealers wanted everywhere.

G. F. TOWERS IS TO BE HEAD OF CENTRAL BANK

Ottawa.—The Dominion government has appointed one of the youngest of Canada's leading bank executives to head the new central bank now in process of establishment. He is Graham Ford Towers, assistant general manager of the Royal Bank of Canada, who will celebrate his 37th birthday in a few weeks.

Appointment of Mr. Towers as first governor of the Bank of Canada was announced by Hon. E. N. Rhodes, minister of finance, upon whose shoulders rests the responsibility of initiating and establishing the new institution.

Born and educated in Montreal, Mr. Towers joined the Royal Bank 14 years ago as an assistant and acquired experience in foreign banking through his subsequent activities as inspector of branches in Cuba. His career has been one of swift advancement and he has published a volume on "Financing Foreign Trade" which brought him considerable acclaim in financial circles.

In accordance with the legislation authorizing establishment of the central bank Mr. Towers' term of office will be seven years, after which he will be eligible for reappointment. He will leave shortly to visit European central banks to gain experience and knowledge of assistance to him in his new work. It is anticipated the Bank of Canada will be in operation shortly after the new year.

It is the intention of the government that a central bank now being secured from some other central bank within the empire so in its initial stages the Bank of Canada may have the services of one high executive with practical experience.

With the problem of electing a supreme head for the bank now solved it is understood further organization will go forward rapidly. There will be a deputy governor and possibly an assistant. Mr. Rhodes will also have to recommend to the governor-in-council the names of seven shareholders who will act with the governor and deputy governor as the board of directors. This of course cannot be done until the capital stock of \$50,000,000 has been offered and subscribed for, which will be done shortly.

Ottawa will be the main office of the central bank and decision is expected shortly on the premises to be chosen.

Fatten Western Lambs

Federal Plan To Assist Sheep Ranchers In Saskatchewan

Toronto.—Hon. Robt. Weir, Dominion minister of agriculture, announced approval of a plan whereby western range feeder lambs would be fattened in Eastern Canada. Members of the Southern Saskatchewan Sheep Breeders' Association have signed 7,000 head of feeder lambs for shipment to eastern feeding points.

Officials of the Dominion livestock branch will find suitable feeding farms and supervise feeding, fattening and marketing operations. Members of the ranchers' association have agreed to consign lambs for fattening under the terms of a rancher-feeder agreement whereby a valuation of three cents a pound is placed on the lambs at the Moose Jaw stock yards.

Freight from shipping point to feed lot will be added to the initial price charged the feeder when lambs go to the feed lot. Freight charges will be met by the Dominion department of agriculture, the department to be reimbursed when sales are made. Ranchers will maintain ownership of the lambs until marketed when the rancher and feeder will obtain their share of proceeds.

To Test Sobriety

Moscow.—An instrument to test sobriety, called an alcoholometer, has been introduced to police stations in Soviet Russia. The suspect is required to breathe through the neck of a glass tube, filled with colorless liquid, for 15 seconds. If the suspect is sober, the liquid becomes pale red; if drunk, a cloudy grey.

Flagship Leaves Vancouver

Vancouver.—H.M.S. Norfolk, flagship of the British West Indies fleet, sailed from here after a four-day visit, bound for her base at Bermuda and thence to England. She is due at Bermuda, October 17, and will return to England the following

W. N. U. 2063

Customs Officers Seize Opium

Two Concealed In Third Class Stateroom On Liner

Vancouver.—Opium valued at \$6,000 was seized by Canadian customs officers on board the Canadian Pacific steamship liner Empress of Asia here.

The opium, contained in 200 one-ounce tins, was concealed in the false bottom of a wardrobe cupboard in a third class stateroom in the after part of the ship.

One-ounce tins have seldom been seen here, most of the opium seized being contained in five-ounce tins. Authorities believe the drug was intended for either Honolulu or Manila. It was the first opium seizure here in months. No arrest has been made.

Heard The Program

Manager Of Arctic Post Gets Radio Reception From Steamer

Montreal.—"Oh, yes, we heard your speech and also the piccolo," said the manager of an Arctic post of the Hudson's Bay Company to its governor, Ashley Cooper. "The piccolo," Mr. Cooper said, in telling of the incident to a local service club, was a bagpipe broadcast. Mr. Cooper has just returned from visiting the company's northern stations in the steamer Naupacpie. During the trip he broadcast addresses and a pipe played reels on the bagpipes.

Try For New Record

Sir Malcolm Campbell Plans To Speed At Five Miles A Minute

London.—Sir Malcolm Campbell, Britain's auto speed king, disclosed at a luncheon here that his plans were about complete to make another assault on his own world automobile speed mark at Daytona Beach, Fla., in January. It was there he set the present standard of 272.018 miles an hour a year and a half ago. Since then he has remodelled Bluebird, his racing car.

His goal is a speed of 300 miles an hour—five miles a minute.

Frost Damages Oats

Prospect Of Seed In North Is Not Promising

Prince Albert, Sask.—Frost has taken its toll of oat fields in northern Saskatchewan and the prospect of seed for the 1935 crop is anything but promising. R. R. Tooley, chief supervisor of the Soldier Settlement Board, Saskatchewan branch, stated here.

The quality has deteriorated in some districts to such an extent it is unlikely farmers of the north will have a surplus for seedling the 1935 crop. Mr. Tooley said.

Rests With Membership

Socialist Party And C.C.F. Taking Vote On Merger

Vancouver.—The proposed merger of the British Columbia branch of the Co-operative Commonwealth Federation and the Socialist Party of Canada will rest with the general membership. The C.C.F. provincial council has decided to submit the question to a referendum of members of each constituency body. The vote will be taken as soon as possible and a return must be made within 90 days.

Oppose Emigration Plan

Weymouth, Eng.—Delegates to the Trades Union congress were warned by J. McLeod, Canadian delegate, against emigration schemes "put forward by some members of the House of Commons." He declared such schemes would be "fraught with difficulties, privations and want" unless there was provision for substantial government grants covering a period of years.

Use Canadian Coal

Ottawa.—For the purpose of encouraging greater use of Canadian mined soft coal, the Dominion government has restored the 90 per cent drawback on imported bituminous used for cooking purposes providing the coke manufacturers use 35 per cent Canadian coal.

Market For Bacon

Toronto.—Canadian farmers who could supply the British market with a continuous supply of high quality bacon had unlimited opportunities, Canadian National Exhibition directors were told at a luncheon by Hon. G. Howard Ferguson, high commissioner to London.

Turkey Would Join League

Geneva.—Turkey has decided to present herself as candidate for the League of Nations council seat to be vacated this month by China.

In Favorable Position

Canada Is Friendly In Relations With Other Countries

Montreal.—While abroad there is little cause for "cheerful spirit," Canada is in a favorable position, its relations with other countries being friendly, the committee on international relations reported to the Canadian Bar Association in annual convention here.

At present, the report notes, the whole world is faced with a situation in which members of each of the many groups are discussing how best to destroy one another. Each of them is silently conscious that both defender and aggressor in any conflict will be destroyed as a likely result, without any assurance that one group or nation will emerge clearly dominant, the report contends.

Need Larger Army

U.S. Secretary Of War Says Present Force Is Inadequate

Baiton Arsenal, N.J. Secretary of War George Dern said the United States needed a larger, more effective regular army.

The secretary, who came here for the concluding four days of the army's war game manoeuvres against an imaginary enemy invader, said he thought the regular army was not adequately equipped at present, and advocated increasing its strength from 125,000 to 165,000 men.

"The army," he said, "is sadly in need of modernization and mechanization. At its present size the army is not large enough to perform all the peace time tasks assigned to it."

A DEMAND FOR CANADIAN WHEAT IN UNITED STATES

Winnipeg.—With a shortage of Durum wheat in United States becoming more and more apparent, demand for Canadian Durum by United States mills reached a season's peak on the Winnipeg Grain Exchange with the movement south of the international boundary approximating 500,000 bushels. Such exports total about 1,000,000 bushels covering the last two weeks.

Recently top grades of Durum wheat were commanding a 32-cent premium over the September future at both Duluth and Minneapolis, while Canadian Durum average quoted at 17½ cents over Winnipeg October option. This brings the Canadian Durum quotation to approximately \$1 a bushel which despite the 42-cent-a-bushel duty and 2½-cent-a-bushel handling charges still makes the Canadian grain considerably under the United States price.

The United States Durum price at Duluth was \$1.28½ per bushel plus a 32-cent premium making a total of \$1.60½.

Bulk of Canadian Durum wheat is grown in Manitoba and supplies of this variety are being quickly cleaned up.

FIRST WOMAN PILOT

Mrs. Amy Johnson Mollison, the first woman appointed as regular pilot of a transport plane on the London-to-Paris route, explains that she took the job for experience in all-weather flying in preparation for a London to Australia flight this fall.

St. Lawrence Waterway

Matter May Be Taken Up In Next Session Of U.S. Senate

Hyde Park, N.Y.—Frank P. Walsh, chairman of the New York power authority, after a talk with President Roosevelt, predicted re-submission of the St. Lawrence waterways pact with Canada to the next session of the United States senate and its ratification.

He has just returned from the northwestern states.

He issued the following statement after his visit with Mr. Roosevelt:

"The project will be re-submitted at the January session, and I am confident construction work will get under way in the spring. The Great Lakes and the St. Lawrence river are perhaps our most valuable natural resources, and they will be fully developed and utilized in the public interest, for both power and navigation purposes, as an integral part of the public works program.

"The present Roosevelt administration will build the St. Lawrence project, and thus give the United States a new seacoast 3,800 miles in length, placing Chicago, Milwaukee, Cleveland, Detroit, Toronto, Superior, Duluth and other great inland cities on deep-water, and give the northwest 1,000,000 horsepower of the cheapest electricity in the world."

Deal With Health Matters

Would Hold Special Conference With Provincial Representatives At Ottawa

Victoria.—A special conference of provincial representatives at Ottawa to discuss health matters is being considered, Hon. G. M. Weir, British Columbia provincial secretary, stated here. This province is particularly interested and would support centralized control for dealing with major health problems.

Dr. Weir stated B.C. is paying \$700,000 a year for the health bills of persons from other provinces.

PRINCESS MARINA TO FLY TO ENGLAND

News comes from Yugoslavia that Prince George and Princess Marina, whose engagement was announced a few days ago, will fly to England to receive the blessing of King George and Queen Mary. The 27-year-old Greek Princess and her British fiancé, are shown above. It is expected the wedding will take place at Westminster Abbey some time in December.

U.S. Textile Strike

Two Men Killed And Many Wounded In Disorders

Washington.—Rioting and death suddenly punctuated the gigantic United States textile strike even as capital and labor prepared to lay their grievances before a board of President Roosevelt's choosing.

Two men were killed, another was near death, more than a score were wounded by bullets and clubs as a wave of violence surged through the strike-torn mill towns of Georgia and the Carolinas.

Francis J. Gorman, chairman of the textile strike committee, blamed "management and reactionary public officials" for the bloodshed. He warned that a continuance would awaken "all the bitterness that can be aroused" in the ranks of the textile army.

Women Out Of Industry

Mussolini Plans To Replace Men In Jobs Held By Women

Rome.—Benito Mussolini was reported planning to take all women workers out of Italy's industry.

Two reasons it was reliably learned, influenced Il Duce in his decision. Jobs, he holds, interfere with what he believes to be woman's primary duty, the building up of families and the increase of Italy's population.

The positions women hold should be filled with men, thus decreasing unemployment and raising the morale of the people.

An editorial in Mussolini's newspaper, Popolo D'Italia of Milan, tended to confirm the report that he will move to eliminate woman workers.

Call Of The Clouds

Col. Bishop, War Ace, To Take Up Flying Again

Montreal.—The call of the clouds once more gripped Canada's ranking wartime flying ace, Lieut. Col. W. A. Bishop, V.C. After an absence of 12 years from active flying, he has decided to climb back into the cockpit. He is now taking instruction at the Montreal Light Aerplane Club field preparatory to regaining a pilot's license.

Col. Bishop, however, is only going into flying again for personal reasons. He wants to be able to commute between Montreal and his summer home in Muskoka, Ont.

HITLER DECLARES REVOLUTION IN GERMANY AT END

Nurnberg, Germany.—Adolf Hitler, dictator of Germany, declared here: "The National Socialist revolution is ended. It has fulfilled all its hopes."

This declaration he made at the annual convention of the Nazi party, through Robert Wagner, Baden Nazi district leader, who read the proclamation.

Der Fuehrer said revolutions which took a permanent character resulted in anarchy, chaos and misery and merely served the purposes of greedy politicians, and that an evolution had to come to bring about better conditions.

The German leader said the German way of life was fixed for the next 1,000 years, during which time there would be no further revolutions. He described the German regimes of the past 60 years as run by international freebooters and pot-house politicians. He declared later generations would exalt the accomplishments of the Nazi movement as the "German miracle."

Then he turned to the recent plebiscite, and stated:

"If foreigners imagine the 4,000,000 'No' voters constituted a dangerous opposition, they are privileged to smile. . . . Our next attack will demolish the opposition."

Hitler reiterated that Germany while insisting on her own right, wanted peace and friendship with others.

He took up the subject of religion, saying: "We have endeavored to reconcile the religious confessions with the new state. As far as the Protestants are concerned, we are determined to weld them all into one great evangelical reich church."

Concerning the Roman Catholic Church, he said: "Despite lapses on both sides, we shall arrive at a sincere and honorable understanding."

Hitler concluded with a statement that the program was to consolidate the party organizations such as the Schutz Staffel, or picked guard, and the storm troops, into one solid bloc purified of all elements that were not heart and soul with them, to win over all those who still held aloof.

WANT STIFFER PENALTIES GIVEN FOR KIDNAPPING

Montreal.—Kidnapping and its proper punishment occupied the attention of the Canadian Bar Association at its annual meeting here. In a round table conference a motion recommending the criminal code be amended so as to permit judges to impose the lash in sentences under five years was carried. When the matter came up in the convention as a whole the lash recommendation was dropped and the association went on record as recommending the criminal code be amended in order to give the courts jurisdiction to impose more severe sentences in kidnapping cases.

On the suggestion of Mr. Justice J. B. M. Baxter of New Brunswick that it was inexpedient for members of the association to discuss details of punishment and that legislation was not the field of discussion of the convention the recommendation of the committee was altered to carry merely the suggestion that the code be amended to carry more severe penalties than now exist.

Judges and lawyers from all parts of the Dominion took part in the debate on kidnapping. Hon. A. W. Roebuck, K.C., attorney-general of Ontario, appropriately enough in view of the recent Labatt abduction case, occupied the chair when the question came up before the meeting of the association on the recommendation of the committee of administration of criminal justice, that lashes be imposed for the crime.

Suggestions that the funds of people abducted and their relatives be sequestered by the crown made in a speech by Mr. Roebuck, were not approved by a majority of the members after a long debate.

E. J. Murphy, K.C., Toronto, declared kidnapping was the act of a brutal man. The danger of preventing ransom was that if it was not paid the kidnappers would probably do away with the victim for to men like Dillinger a life meant nothing when they wanted to protect themselves.

Judge R. H. Murray, Halifax, thought the remedy for criminals was not punishment but the improvement of conditions and he was opposed to legislation increasing penalties.

Mr. Roebuck said prevention of kidnapping as a profitable business was the best way of bringing it under control. He hoped to embody in a bill to be presented to the Ontario legislature at its next session power to enable the police to suppress the bank account of a kidnapped man and those of his relatives so they could be forcibly prevented from paying ransom money.

Fodder Export

Plan For Exporting Manitoba Straw And Hay To U.S. Is Arranged

Winnipeg.—Arthur MacNamara, deputy minister of labor for Manitoba and chairman of the provincial drouth relief committee, stated all machinery for exporting 250,000 tons of straw and hay to United States for relief purposes has been established.

Those wishing to make such exports, he said may obtain application forms from the Dominion seed branch here but before the applications are authorized they must be approved by the drouth committee.

Criticism Paintings

Toronto.—George Leroux, official representative of the Academie des Beaux Arts, Paris, France, criticized the paintings by Canadian artists who originally comprised the "group of seven" during a visit to the Canadian National Exhibition art gallery. The French artist said the paintings were unnatural and lacked the spirit of love.

Scott Accepts Post

Toronto.—The provisional committee of the Canadian corps council, organized following the veterans' reunion here early in August, has received acceptance of the honorary presidency of the council from Archdeacon F. G. Scott of Quebec, "beloved padre" of the Canadian forces overseas.

Would Build Pulp Mill

Vancouver.—Possibilities for a sulphide pulp mill on the British Columbia coast are being investigated by R. O. Sweeney, Montreal financier, for British capitalists interested in supplying England with raw material for artificial silk and paper manufacture, he said here.

Municipal District of Grizzly Bear No. 452

A meeting of the Council of the
Municipal District of Grizzly Bear
No. 452, was held in the Office at
Wainwright on September 8th.

Mr. Nash, deputy Reeve taking
the chair at 10:45 a.m., there being
also present Councillors D. Gardiner,
E. G. Syme and P. Carmichael.
Minutes of previous meeting were
read, and on motion of Mr. Carmichael,
approved. Mr. Shantz and
Tessman now arrived and Mr.
Nash vacated the chair in favor of
Reeve. A considerable amount of
correspondence was dealt with
these including a report of the
Municipal Conference held at
Vermilion in July which with various
recommendations was tabled. A
memo from Mr. Huxley, Field West
Supervisor, drawing attention to
matters relating to various wells.

From the Department at Edmonton,
stating that in one case a Mother's
Allowance had been fixed at \$30.00
per month. Also that two Old
Age Pensions had been allowed, one
at \$22.50 and one at \$20.00 per
month.

Remuneration of Wainwright
Hospital Trustees was discussed and
eventually Mr. Syme's motion that
this Council having payment of
Hospital Representatives in full
from Hospital Boards for each meet-
ing attend irrespective of the amounts
requisitioned for, was agreed to.

On motion the Council agreed to
support at next Municipal Convention
a move to have Hospital Re-
quisition based on Valuation instead
of as in Wainwright on increased
basis.

Secretary reported having advised
the Agreement with Inland and
Vermilion Hospitals and the Grizzly
Bear Municipality for cede of in-
dulgents as per the Health Department
requirements.

A number of applications for Con-
solidation of Tax Arrears received
since last meeting were submitted
and approved.

Arrangements were made for ad-
vertising New Pound in Tp. 47,
with P. Torline's pound keeper. Mr.
Carmichael was empowered to ar-
range for a new pound in Tp. 49-4,
that would be central and convenient
for the majority of the rate-
payers. In view of an application
for relief from Mrs. T. Carson.
Council agreed that action should be
taken to have her husband
contribute to her support.

No. 452 was submitted from the
Provincial Assessor of an appeal to
the Alberta Assessment Commission
against the decision of the Council
in agreeing to exempt certain lands
of the Hudson Bay and C.P.R.
Companies. Also an appeal from
the Hudson Bay Company, against
Council's refusal to exempt their

lands on 26.47.4 and on 26.48.6 and
26.49.6.4. Notice of these appeals
had been forwarded to the Assess-
ment Commission.

Agreed to advertise a Tax Sale
for November 5th. Quarterly pay-
ments of September for School
and Hospitals were under consid-
eration, and Reeve and Secretary em-
powered to arrange for borrowing
if needed.

Cash books were submitted show-
ing income to date as \$20624, with
expenditures of \$16761. Receipts
being \$271 down, as at same date
a year ago.

Road work Sheets submitted and
passed were: Div. 1. \$20-40; Div. 2.
\$10-00, \$221-09; Div. 3. \$6-00, \$14.
\$283-90, \$80-50 with other accounts
totaling over \$500-00.

"It's a nut about ornithology. I
found that out at the hotel the
other night. And where was I last
night? Right across the corner to
the public library. I got me a book
on ornithology and read it. And
say, there's something kind of in-
teresting about that a bit. I never
looked at birds just that way before.
"And so you think you're ready
for the toughest bird in town, do
you?"

"Sure, I go for these tough guys
I find out what they're interested
in and then I study up on it. Now,
when I get to talking to Atkins
about birds he'll forget I'm selling
insurance and he'll be signing on
the dotted line before he knows it."

"Well, Eddie, I'm not saying that
anybody that studies up on ornithol-
ogy is dumb, but I'm willing to bet
a new hat that Atkins doesn't
bite on you even if it is baited
with birds."

"Say, I'll just take that up, Bock.
Just shows what you don't know
about ornithology. I'll tell you about
the book I was reading some day.
But, here, why don't you just wait
for me over on the corner there?
You're just loafing, anyway. I'll
be going to take a walk. And I'll
meet you just as soon as I sign up
Atkins. Okay?"

"Okay."
The clock hanging over the street
corner clanged on the quarter of eight.
At that, Eddie was sitting with
Atkins a little longer than the
average salesman, mentally advis-
ed Bock. But more than likely he
was just standing by while Atkins
waited on a customer.

A raucous chime tolled the half-
hour. That was pretty long on At-
kins as he was waiting on a customer.
Maybe he and Eddie had got to the
subject of birds. Well, he'd give
him five more minutes at the most
now.

A quarter of the next hour. A
terrific waste of time. Bock winked
he'd gone over to the hotel and sit
down. Imagine an boy's wasting
this much time trying to sell Atkins
a thing. The hour struck. Well,
might as well wait now. He'd just
as soon get that hot right away.
Don't suppose Eddie could have gone
out the back door? — Mgt. H.

He'd sure feel cheap not to sell
Atkins. Wait, Eddie was coming.
The insurance salesman came out
the door of the Atkins general store
and crossed the street to rejoin his
companion. He looked excitedly
pleased.

Bock didn't miss that a d h m
was asked. "Then you did sell him?"

Eddie, still highly pleased, looked
at him with surprise. "Selling him?
Oh, he didn't want my insurance.
But he bought a book on birds. He
bought it for \$1.00. It was a book
entitled 'Bird Life in the Boreana'."

Clever People

SYDNEY, N.S.W., Sept.
10.—(Bup)—The consul-
general for China in Aus-
tralia, Dr. Chen, has given
an Oriental explanation of
the creation of the white
and colored races.

Man, he says, was created
out of clay and baked in an
oven. He was baked too
much—burnt, in fact—and
as a result there were the
negroes. The second was
baked too little—he was
underdone, almost raw—
and consequently there
were the white men. The
third man was baked nei-
ther too long nor too little—
and consequently there
were the yellow men—so
perfectly "done" that it was
decided to bake 50,000,000
of them.

Oil Fields to Increase Production

With only five of its 14
wells producing and no new
drilling in progress, Wain-
wright-Albany oil field con-
taining valuable resources
virtually is idle. John Har-
vie, deputy minister of
lands and mines, found in
his complete inspection of
the area Monday. Output
of the operating wells is
less than 2,600 barrels a
month and the Wainwright
refinery is forced to import
crude from Wyoming in
order to keep its plant op-
erating. Prices of 90 cents
to \$1.10 are paid for the
"local" crude.

The British-Wainwright
well, in the northern part
of the field, is to resume
production this week, after
standing idle for four years.
The well produces 400 to
500 barrels per month.

The above report was taken
from the Edmonton
Journal of Friday last.

(Continued from Page 4)

ings amounted to \$322,491.8. Ex-
penditures by warrants, due chiefly
to School Grants, Agricultural In-
terest and Old Age Pensions, however,
amounted to \$536,261.05, making a
total increase of expenditures over
the estimates of \$214,009.18.

7. The total debt of the province
increased during the fiscal year by
less than a million dollars, namely,
\$222,594.20.

8. The cost of long term borrow-
ings was reduced over the previous
fiscal year by 1.175, this showing
the trend toward a decrease in the

WORLD HAPPENINGS BRIEFLY TOLD

The French plane *Arc-En-Ciel* arrived at Natal, Brazil, after successfully flying the south Atlantic from Dakar, French West Africa.

Dr. Carl Oiaz Jensen, one of the world's most eminent cancer research workers, died recently at Copenhagen of apoplexy.

A new attendance record was recorded at the Canadian National Exhibition with 265,000 persons entering the grounds on Labor Day.

The "Ontario Bulletin," official publication of the Ontario government offices in London, England, has ceased publication as the result of the government's decision to abolish the offices.

The British Columbia board of industrial relations is considering minimum wage regulations for male workers Adam Bell, chairman of the board and deputy minister of labor, announced.

The U.S. farm administration reported that up to August 31 it had purchased 4,250,000 cattle in more than a score of drouth states, for which part payment of \$38,811,870 already has gone to nearly 250,000 farmers.

Returned from a five-week tour of the northwest, Stan Johnson, western district manager for Booth Fisheries Canadian Co., Ltd., said that the fish catch in the northern prairie provinces has been "enormous" this summer.

A delegation of the Japan Prohibition League visited Premier Katsuriki Okada and urged that the sake-loving official give up the use of alcohol. The premier listened long enough to ascertain the object of his visitors and then turned away without answering.

George Batho, of the Manitoba department of agriculture, announced the finding of a new weed plague in Manitoba. Field bindweed, he said, had been located near Winkler, in the southern part of the province. He said it was the first time the weed has been encountered in Manitoba.

Little Journeys in Science

CORN PRODUCTS

(By Gordon H. Guest, M.A.)

Corn, which grows abundantly on this continent and in the West Indies, is perhaps one of the most widely used grains. Apart from being a common food in the form of meal or cereals, the kernel when opened, is found to have three parts: the outside, or husk, or pericarp; the germ, and the mass of white material which is mostly starch.

One bushel of corn gives approximately one pound of oil which is refined and sold as a vegetable fat for cooking. The less refined grades are utilized for soap making or for the production of glycerine and nitroglycerine.

Starch from the corn is made into corn starch, for cooking, and into laundry starch.

Another important use of this grain is in making corn syrup which is a widely used product. Corn syrup is made by converting the starch in the corn into a sugar, known as glucose, through treating it with acid in large pressure tanks under fifty pounds of steam. This treatment changes the starch into the thick, sweet substance which we know as corn syrup.

From corn also is extracted a type of gum, which is used in place of rubber to some extent. "Red rubber" crumbers and sponges may be made from this substance. It is also used in the manufacture of rubber soles for shoes.

Outer husks of the corn and some residue of the oil products are made into cattle food, adding still another to the many products of this common grain.

Silencing The Bore

"The world's a small place," said the bore. "For instance at Easter in Paris I met a man who lives in the next road to me. Later I met him in Venice, then in Rome, again in Alexandria, and finally I crossed the channel with him. What do you think of that?"

"Why didn't you pay him what you owed him in the corner," asked the little man in the corner.

A flight through a heavy rain by a plane equipped with a wooden propeller will eat away several inches of the propeller.

It requires two and a half months for a shipment of Canadian flour to reach Calcutta from Vancouver.

What Does Your Handwriting Tell?

By LAWRENCE HIBBERT
(Grapho-Analyst)
(All Rights Reserved)

Handwriting analysis, to be accurate and helpful to the writer, must be based on lengthy research and a painstaking regard for basic values.

I am repeatedly asked if there is anything magical about character reading from handwriting. So I am taking this opportunity again to stress that when I make an analysis of a specimen of hand writing, I am not literally taking a stab out of your best hat, in the approved conjuring manner!

It may seem to the lay-person that, for a Grapho-Analyst to give what turns out to be an accurate analysis from handwriting, is to perform a regular magician's trick—a sort of Houdini cum Maskelyne cum Thurston device.

Nothing could be further from the truth. It is simply a scientific evaluation of the indications revealed to the practiced grapho-analytic eye by the handwriting specimen. When you go to a doctor, and he tells you that you have a certain organic ailment, you do not impute him mentally as a magician. You know that his medical education, his training, his research and his practice, have all coalesced into an ability to diagnose ailments. He himself will not regard himself as infallible; he may, quite possibly, call in extra-medical advice from his confreres.

And even if, on an occasion doctors do, he makes a mistake, you do not stigmatize medical men as quacks. . . . Because doctors have not yet found a cure for cancer, you do not hesitate to go to a medical man when you are suffering pain, or feel that you have some physical derangement.

Grapho-Analysis, like medicine and surgery, is still searching for hidden truths about its own science. It is making tremendous and rapid strides. But do not damn it because, sometime in the past, you have been dissatisfied with one particular member's analysis.

I have been asked of what practical value is it to people, to have their handwriting analyzed. As well might one ask what use is it to a salesman to learn how to become a better salesman; or a business man to know more about his business; or a nurse to gain a better understanding of, and more tolerant sympathy with her patients.

For, as all things are sensible suggestions, so it is just as essential for you to know yourself. Grapho-Analysis shows you not only your general characteristics, but hidden tendencies that may burst into characteristics at any time.

It shows you where are your faults, and thereby gives you the chance to correct them. And it always takes a person on the path to greater personal understanding, and enables one to get more from others.

Here are a few brief extracts from analyses made for readers: E. C.—There is a frank, generous and sympathetic nature revealed. One who longs for affection, but is sensitive to praise or blame; too sensitive perhaps. A strong desire for intellectual companionship, and have a love of the beautiful in nature or art.

T. A.—Your writing shows that you have an enquiring turn of mind; you wish to get at the bottom of things, but you are inclined to be a little forgetful about those things in which you are not interested and to which they do not let this grow.

A. W.—You have a material nature, and are likely to consider your own interest at times, before responding to appeals from others. You are not inherently generous. Do not let this tendency develop into "tightness" or "meanness."

Do you want a personal analysis of your own handwriting, showing your faults and virtues? It will probably amaze you with its revelations of your character, and may open the door of opportunity to you. Send a letter in your normal writing, and state your exact birthdate. Enclose with 10c coin (for each specimen) and 3c stamped address envelope to: Lawrence Hibbert, Grapho-analyst, c/o Winnipeg Newspaper Union, 175 McDermott Ave., E., Winnipeg.

Racial Prejudice

Britisher Says Canadians Will Find Strength In Union

Citizens of the Dominion be they of French, English, Jewish, Swedish, Irish or Scottish ancestry were warned against racial prejudice and urged never to forget that first, last and always they are Canadians. Reminder that "you will find strength in union," came from Rt. Hon. H. A. L. Fisher, former minister of education in Great Britain and warden of New College, Oxford, speaking at a civic luncheon in Montreal tendered the official delegates of Great Britain, France and the United States to the quarter-century Jacques Cartier celebrations.

An Amazing Machine

An amazing machine which thinks, likes, dislikes, forgets and remembers, and chooses its food has just been invented by a young American scientist in Boston. It can show resentment when its hair is pulled, and shake its head in disgust at food it has been taught to dislike.

A new microscope is equipped with a four-eye-piece attachment for monocular observation instead of the usual one.

TURRET
has the
QUALITY
that counts

POKER HANDS,
too!

of tenants to purchase the farms which they are at present farming under lease. The farm management service supplied by the Colonization Finance Corporation covers at present all of the arable land in Manitoba from the International boundary north to township 35, and the Eastern part of Saskatchewan as far as Regina. On July 1st, we established a farm management zone in the Swan River area, the only district we had not covered until this year.

The object of this inspection trip for my associates and myself is to inspect the work which is being carried on, to note how it is being regarded by the individual farmers and communities and districts in which we operate, and to give us the necessary information with which we can formulate a policy for the future of this work, which I believe to be worth while. As rapidly as conditions warrant, and as qualified men can be obtained and trained for farm managers, we hope to open new zones. The necessary attention to detail and the cost of this work are naturally limiting factors.

While Mr. Somerville and I have met most of the farm managers last year, I am particularly pleased with the conference arranged at Clear Lake in the Riding Mountain National Park which will give Mr. A. N. Mitchell, and our Vice-president Mr. J. R. Weston, an opportunity of meeting and stating our views in the field.

There was one change made in our personnel during the year. Mr. O. S. Longman, zone manager at Indian Head, was appointed Field Crops Commissioner for the province of Alberta and he was succeeded by Mr. W. C. McKillop, former Dean of the Manitoba Agricultural College whose zone we shall visit. Our trip last year took us through Southern Manitoba, particularly that portion affected by the drouth, and Southern and South Eastern Saskatchewan. This year we have planned to visit the eastern portion of the Red River Valley; we shall visit the Portage Plains and the Minnedosa and Neepawa districts, and we expect to visit the Swan River Valley. We shall be accompanied by Mr. W. R. McConnell of Regina, by a number of our loan managers in the West, and officials of our corporation. In Saskatchewan we expect to visit farms in the Canora, Yorkton, and Indian Head zones. We shall bring our Colonization Finance Corporation inspection trip to a close at Regina, after which some of our party are returning East while others are proceeding westward on business of their respective individual companies.

Basis For Security

Complete prevention of war, not simply a futile attempt to humanize it, will give the world the security it wants, Arthur Henderson, president of the disarmament conference, told the Co-operative Societies of England at a meeting in London.

Gliding tests are to be made by German air pilots over the South Atlantic.

SUNDAY SCHOOL LESSON SEPTEMBER 16

ISAIAH CONTRASTS FALSE AND TRUE WORSHIP

Golden text:

Who shall ascend into the hill of the Lord?
And who shall stand in his holy place?
He that hath clean hands, and a pure heart. Psalm 24:3, 4.
Lesson: Isaiah 1:1-31.
Devotional Reading: John 4:20-24

Explanations And Comments

The Perverseness of God's People, verses 1-9. "The Great Arrangement" is an apt phrase given to this chapter by Ewald. God's chosen people have rebelled against him. Even the dumb animals, the ox and the ass are responsive to their masters, but the people of Judah do not consider their Lord. This perverseness has brought punishment upon them, and it is only because of Jehovah's mercy that they have escaped the fate of the people of Babel and Gomorrah.

Outward Signs of Religious Zeal Do Not Deceive Jehovah, verses 10-15. The prophet Isaiah now hears in spirit the remonstrance of his audience, Delitach thinks "They would fain represent the accusations which he had just uttered as unfounded, by appealing to their exact observance of the divine law; but in opposition to this ground of self-justification which the prophet has read out of the hearts of those impeached, he but proceeds to prove the divine arraignment which begins in verse ten."

"Fears the word of Jehovah, 'I fear the word of Jehovah, the prophet of Babel,' the prophet cries; 'give ear unto the law of our God, ye people of Gomorrah.' By addressing them as 'rulers of Babel' and 'people of Gomorrah,' he reminds them alike of their wickedness and of their danger. The 'law' to which he bids them give heed, is the inspired discourse he is about to deliver.

"What unto me is the multitude of your sacrifices?" saith Jehovah. "I have had enough of the burnt-offerings of rams and the fat of fed beasts; and I delight not in the blood of bullocks, or of lambs, or of he-goats." Their altars reeked with the blood of sacrifices, but it was all an expression of religiousness, not of religion.

The Nature of True Worship, verses 16, 17. "Wash you, make you clean; put away the evil of your days before mine eyes." "Wash you, make you clean" are figurative words for repentance and amendment. Recall David's cry after his great sin: "Create in me a clean heart, O God, and renew a right spirit within me." "Cease to do evil; learn to do well." It is not enough to cease from sin. True worship consists also in right living, in service for others.

Silence Zone

Motor Horn Order Gives British People A Chance To Sleep

An "anti-honking" order to motorists during sleeping hours has proven so successful in London that the ministry of transport has decided to extend it to every city, town and "built-up" area in the country.

Thus England will become a vast silence zone between the hours of 11:30 p.m. and 7 a.m. so far as motor horns are concerned.

Had Long Job

Topographers at Wellesley, Mass., have been working for nine years on a huge map of the United States. When it is finished, it will be 46 feet wide, and will show every mountain and valley in the country reproduced exactly to scale in height and size. Eventually it will contain 900 blocks.

Thomas Jefferson was 33 years old when he drafted the Declaration of Independence.

Rome is to have an auditorium seating 5,000 people.

Louis L. Lang, President, Galt, Ont.

Frank W. Reinhold, Chief Farm Manager

J. F. Weston, Vice-President

T. O. F. Herzer, General Manager

Colonization Finance Corporation

Inspection Trip To The West By Officials Of The Organization

Mr. Louis L. Lang, of Galt, Ontario, president of the Colonization Finance Corporation, stated on arrival at Winnipeg, "This is the second inspection trip made by myself, but is the first trip which being under the taken jointly with executive officers of member companies associated in the work of the Colonization Finance Corporation. My colleagues on this inspection tour are, Mr. J. F. Weston, vice-president of the Colonization Finance Corporation and managing director of the Imperial Life Assurance Company; A. N. Mitchell, general manager of the Mutual Life Assurance Company; and W. H. Somerville, general manager of the Mutual Life Assurance Company. We are interested in the farm management program of our corporation because we realize what improvement to agriculture means to Eastern Canada as well as to the business interests in the West. This year marks the fifth year of the operation of our corporation.

Beginning in 1930 with 25,000 acres under the supervision of two farm managers, we have at present a field staff of fifteen farm managers and assistant farm managers covering all of Manitoba and Eastern Saskatchewan. The zone farm managers' headquarters are at Winnipeg, Carman, Portage la Prairie, Brandon, Killarney, Deloraine, Virden, Birtle and Dauphin in Manitoba, and Oxbow, Moosomin, Weyburn, Indian Head, Yorkton, and Canora in Saskatchewan. These men have under their supervision 1,763 farms, totaling 602,382 acres. About 70% of these farms are occupied and operated by their farmer owners; the interests of our member companies being represented by mortgage or an agreement of sale. Only 30% of the farms are operated by tenants. One of the objects of our work is to assist farmers to retain the farms they are at present operating by co-operating with them in any improvements which are possible, and also to make it possible for a substantial number

OCCASIONAL WIFE

By
EDNA ROSS WEBSTER
Author of "Jeetie," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and is not studying commercial art in the hope of finding an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's mother and Gus Matson, his former roommate with whom he has quarrelled. A party at an exclusive club, when the rest of the members of the party go to a cabaret to continue the party, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake the next morning, they find another boy standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along. Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of \$1,000. Peter finishes his exhibit and asks Avis and Camilla for suggestions as to a name for it. Camilla suggests "Easter Youth" and Avis "Inspiration." Peter adopts the latter title and Camilla, heartbroken, goes to Peter's studio to see him. Peter and Avis follow later, and as the lights are turned on, see the statue has been shattered to pieces. Avis accuses Camilla of doing this and Camilla, stunned by the disaster and hurt and horrified by the accusation, faints.

At Camilla's suggestion, Peter enters his exhibit a statue he has sculptured especially for her as a wedding gift. They named it "Land of Hope."

Camilla's advertising campaign and Tiny Tots broadcast was a great success, and Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the author and that not a word so able stimulating business for his company.

Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France after the ship's departure from New York, he is on his way to his cabin when he meets Avis. Avis tells Peter that Camilla smashed his scholarship exhibit in a fit of temper, and he believes her.

Meanwhile in New York Gus Matson calls on Camilla and confesses it was he who destroyed Peter's model.

(Now Go On With The Story)

CHAPTER LX

A peremptory summons from Mr. Hoyt on the day after Gus Matson's visit, took Camilla to his office in a state of trepidation. His coming unlooked for. He was angry with her for her presumption and deception? Had his pleasant attitude at the broadcasting station been only a masked act, for the sake of his pride? It would be like him, perhaps.

She approached the inner office almost with a feeling that the man whom she was about to meet was a stranger to her. But his greeting was cordial enough—even affectionate. Her four visitations.

"I've been wanting to talk to you my dear. You gave me the surprise of my life the other day."

"Was it very wrong of me to deceive you, dad?" she appealed wistfully.

His eyes twinkled as he never had seen them before. "Tom mightily glad you did. You proved to me what I always suspected that you could do. Even when your mother opposed your ambition to take up commercial art, I held a secret conviction that you could make good. With your determination, I could see that no encouragement from me would be superfluous, and only antagonize your mother more." He exchanged with her that look which she remembered so well from her childhood, a glance of understanding which made words useless.

"Nothing could have pleased me more than the way you have developed. I will admit that I never should have dreamed of placing my business promotion into your experienced hands, much as I believed in you. So I engaged efficiency experts and paid a large fee to an advertising agency to handle the campaign. And, after all, it fell right into your inexperienced hands, and you pulled us to victory. It only goes to show that the wisest of us haven't so much judgment, altogether, no matter how big we think we are. Well—that is just a little of life's irony."

"It would be worse than irony if I hadn't made good," she reminded him with a timid smile.

"But you did!" he dismissed the matter with a wave of his hand, and demanded abruptly. "But what about Peter? Are you going to let your marriage fall now that you have succeeded in your career?"

"Oh, no!" Camilla denied. "You know why I did not go abroad with Peter. We are living according to our original contract, of course."

"What good will your contract be a year from now?"

"Why—Peter loves me, dad!"

"I don't doubt it. I know he does. But when people love each other and are married, they should be together; at least, for most of the time I tell you, Camilla, I feel it my duty to advise you from a man's standpoint. Your place is with Peter in Paris, or wherever he is."

"But he can't take care of me and he won't accept my help. He is terribly proud."

"Of course. But what about Avis Werth?" he released another bomb.

"Do you know that she is on the same boat with Peter?"

"Yes, but—"

"That is no coincidence," he interrupted, sternly. "Camilla, I may as well confess that I've kept a pretty close watch over your private affairs since you left us. Your happiness is my deepest concern. I did not let your marriage plans when I first learned about them, and this separation has made them preposterous. I tell you I won't stand by and see your life ruined. It will be, if you lose Peter. I know what he means to you—you may not think so," his voice lowered and he seemed to be projected for a moment into a distant past, "but I, too, know what love can mean. But you will lose Peter, if you permit this to go on—at least, you will lose the Peter and the love with which you began so confidently."

"Oh, I do wish so much to be with Peter," she confessed. "But he won't have me, under the circumstances."

"In these any objection to your living apart in Paris, and seeing each other often, as you did here?"

"I suppose not. But I can't leave my work and live there on nothing."

"Listen to me, my dear. If necessary, there always could be someone found to fill your place in your work, but not in Peter's life. And that is not even necessary. It will be a simple matter to find someone to take over your radio programs, even someone whose voice so resembles yours that the public never would recognize a substitute, if that is more advisable. You have started the programs personally. Now, there is no reason why you can't pack up the rest of your work and take it right over to Paris with you. That will solve the problem of present existence. You can provide for yourself very well, but I also make the requirement that you and Peter are to take a comfortable studio, large enough to accommodate the work and privacy and temperaments of two geniuses," he smiled at her, "and live together. You will discover what happiness is, then."

"But Peter won't live that way when I have the advantage over him. He hasn't even a start in Paris yet."

"As for Peter, I have managed some other things which may modify his wounded pride," Hoyt continued placidly. "I have arranged for a large replica of his exhibit group to be given a prominent place in this city, but he never will know who promoted the movement. You will understand the rest for his sake. It is not philanthropy—I was only given the kind of destiny for starting the movement."

"As for your future, my dear child, you are my sole heir to the fortune which you have salvaged. However, that is not a new plan. I always expected to bequeath the bulk of my estate to you, but I purposely insisted when your mother took you that I should not acknowledge you as an heir, so that you would be forced to prove yourself. I had confidence that you would, which increased as you grew older. That you accomplished it through your own efforts to reclaim my business, is another one of those inexplicable twists of fate. But I advise you, do not let her wither in the eyes."

"That you had better not tell your proud Peter you are an heirless. Let him be surprised when the time comes."

comes, and he has made good for himself."

The fears were failing, unheeded, down Camilla's face while he talked; and when she left, a more perfect bond of paternal affection and daughterly respect was not to be found anywhere. Camilla Hoyt had entered into her rightful heritage, by character and effort.

"Yes, but—"

"That is no coincidence," he interrupted, sternly. "Camilla, I may as well confess that I've kept a pretty close watch over your private affairs since you left us. Your happiness is my deepest concern. I did not let your marriage plans when I first learned about them, and this separation has made them preposterous. Fourth Motion For Earth

Herts World In Great Circles States
U.S. Astronomer

Dr. Roscoe F. Sanford said he has found new evidence that the earth has a fourth motion which hurled it about in a great circle at a rate estimated by astronomers at 150 miles a second.

He also found additional proof of a third motion in which the earth follows the sun among neighboring stars at a rate of twelve miles a second.

"The motion of the earth on its axis, giving day and night, and that in its orbit, producing the march of the seasons, are common every-day experiences," said Dr. Sanford, astronomer of the Carnegie Institution's Mount Wilson Observatory.

"Not so obvious is the motion of the earth as an attendant of the sun as it moves among the other stars, and even less so the motions on a grand scale of the sun and its neighbors in colossal orbits about the center of our galaxy, or the Milky Way star system."

"A recent test of both these motions has been afforded by the Mount Wilson velocities in the line of sight of 140 cool, red stars which are scattered about the sun at distances which average about two thousand light years (12,000,000,000,000 miles)."

"The analysis of these confirms the motion of the sun as previously determined, showing a speed of twelve miles a second toward the constellation of Lyra, and gives fair evidence that these stars revolve around the galactic center in Sagittarius, with those which are closer going so the more rapidly."

"We humans are therefore moving through space by a complication of motions consisting of those about the earth's axis and orbit, with the sun among the stars and with the sun among the galaxy—to say nothing of what may be that of the galaxy as a whole."

In support of this fifth motion, Dr. Sanford and other astronomers at the Mount Wilson Observatory have observed other great star systems far out in space moving rapidly away from the Milky Way system, the more distant the star system, or nebula, the greater its apparent motion.

The astronomers take it for granted that if an observer were on one of these nebulae, the Milky Way system might appear to be moving away from it.

The astronomers take it for granted that if an observer were on one of these nebulae, the Milky Way system might appear to be moving away from it.

Little Helps For This Week

"He that abideth in me and I in him bringeth forth much fruit." John 15:5.

"Let the beauty of the Lord our God be upon us." Psalm 80:17.

As some rare perfume in a vase of clay pervades with a fragrance not its own. So, when Thou dwellest in a mortal soul.

All heaven's own sweetness seems about it thrown.

Some glances of real beauty may be seen in their faces who dwell in true meekness. There is a harmony in the sound of that voice to which Divine love gives utterance, and some appearance of right order in their temper and conduct whose passions are regulated.—John Woolman.

I believe that no Divine truth can dwell in any heart without an external testimony in manner, bearing, and appearance, that must reach the witness in the heart of the beholder and bear an unmistakable, though silent, evidence to the eternal principle from which it emanates.

Denmark Girl Honor Student Leads Her Grades After Two Years In Canada

The English language may be difficult for most foreigners, but not 15-year-old Gudrun Hoy Jensen, gold-haired Danish girl. She came to Canada with her family in 1932, and since then not only learned the language of her new country, but passed through four grades in school. This year she made a total of 651 and was placed in the honor list of high school entrance pupils at St. John, N.B.

NOTICE

The Council of the Town of Wainwright met in regular session on Tuesday, September 18, 1934, to receive from and to discuss with resident ratepayers proposals for the operation of an open skating rink within the Town of Wainwright the season 1934 & 1935 and to accept that proposal which then appears best.

Dated at Wainwright, Alberta, this 10th day of September 1934 and published by order of Council.

N. S. KENNY
Treasurer

MUNICIPAL DISTRICT OF BUFFALO COULEE, NO. 453 Council meeting was held in Buffalo, S. C. on Wednesday, September 12, 1934, at 8:00 p.m. and the following resolutions were passed:

Minutes of August 11th were read and were confirmed on motion of Mr. Dew.

Monthly statement for August was read and approved same.

Mr. Dew carried that relief order for \$2.00 be issued to Mrs. B. Dew on September 12. Correspondence was read regarding T. G. Uphall and family. Mr. Uphall was present and after some discussion Mr. Hill carried that orders be issued for \$11.00 for September and also for October. Relief order of \$6.00 for August and the same for September for James Muncie was also approved.

Correspondence regarding the NW 22.48.9.4 was read. Owner agreed time to pay Consolidation payment. Mr. Hill carried request be granted to file notice for the month were read.

Secretary was instructed to write the Public Administrator re the estate of Robert Brown. It was decided that his interest on the agreement with R. L. Baker on the NW 32.47.9.4 and that with E. L. Steele on the NW 28.48.7.4 is to be reduced to 5% as from January 1, 1934.

Council refused on motion of Cr. Hills to grant permission to the local telephone committee to brace poles with wire. Secretary was instructed to write Telephone Department regarding loose wire and broken poles along the road between sections 21 and 22 in 49.9.4.

A letter was read from the Compensation Board regarding E. W. Shupe. Cr. Dew agreed to take the letter and interview Dr. Knapp and report at next meeting. (To be Continued Next Week)
